**Now, there are times when Mom, Dad, your doctor, or some other adult has to look at, or even touch your private parts, but for a reason. You know, like during bath time if you need help. That would be a reason and it wouldn't be a secret. Sometimes you might need medicine to be put on your private parts by Mom, Dad, or your doctor. That's for a reason too, right? They are trying to help you get better, and it's not a secret. That's okay. When you go to the doctor for a check-up, your**
